Quarters, Halves, Whole of All Natural Grass-fed Angus Beef-Bashaw Valley Grown

¼ Beef	\$3.89# Cash Hanging Wt. + \$0.80/# process
½ Beef	\$3.69# Cash Hanging Wt. + \$0.75/# processing
Whole Beef	\$3.49# Cash Hanging Wt. + \$0.70/# processing
Double wrapping or Crayovac Wrap	\$0.10/# Hanging Weight extra
(Pricing is for cash only Credit Card will be an additional 4% of total order)	

For Example: A whole beef should dress out around 600# hanging weight. To figure out the average price per pound take $600\# \times (3.49(\text{meat } \$/\#) + \$0.70(\text{processing}/\#)) = \$2,514.00$. After processing and trimming there is around 400# of actual meat (including, misc. cuts and hamburger) then take $\$2,514.00 \div 400(\# \text{ of actual meat}) = \$6.29\#$. So for this particular example your average cost would be \$6.29 per pound. Typically each quarter weighs about 150# hanging weight. On average, after processing there should be around 100# of actual meat (cuts and hamburger). A quarter beef is a mixture of the front and back halves so there will be a selection of all the different cuts including hamburger.

*NOTE: These are just example weights. The pounds of meat will vary depending on the size of the animal, the dressing percentage and type of cuts that are ordered. If you have any questions please do not hesitate to contact us at 715-468-2591.

Pasture Raised Pork-Bashaw Valley Grown
